

Legacy of Caring is a place for people that are 55 and older. Your loved one can belong to a community that honors them for who they are and their current walk of life. Legacy of Caring will strive to provide a safe, secure environment for our members that are unable to live safely at home, promoting a lifestyle of respect, dignity, family and love.

Legacy of Caring is located in the city of Whitehall, nestled back on 8 acres surrounded by beautiful wildlife galore. Quiet and peaceful yet close to community amenities, convenient for in-town opportunities and engagements.

We are here to care for their needs so you don't have to worry while leaving a legacy for generations to come. The founder of Legacy of Caring is a seasoned professional with over 30 years of experience in the geriatric field. There is a passion of service that brings the perfect mix of skills and knowledge needed to care for your loved one.

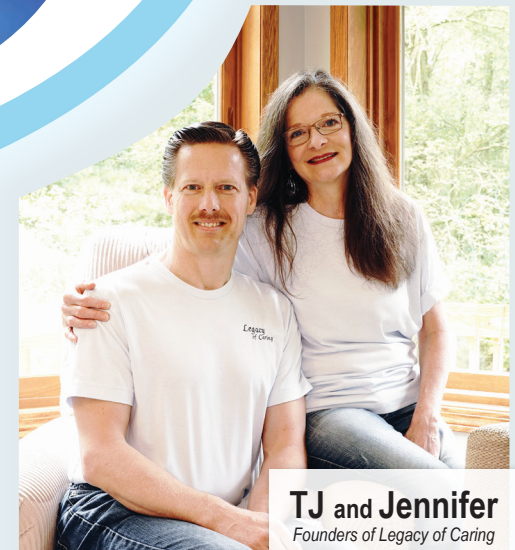

“A place where they can call it their home.”
